enter.app : Your executable file. It is required to be a file on the same folder as ipa. framework.plugins.hockeyapp : Contains the IPA and Hockeyapp icons. I don't know if this is required. It's available here Xcode Xcode will ask you to archive the IPA file. After the archive process is finished you'll find a Xcode generated IPA and a copy of the Java project files inside. Run the IPA on a iOS device and it will look like this. Hope it helped someone! Takayama Domain The was a Japanese domain of the Edo period. It was associated with the Bakumatsu period Tosa domain based in Tosa. The domain's headquarters were in Takayama (⌷⌷⌷ in Kōchi, and the domain received the kokudaka of 130,000 koku. In 1867, the domain was given to the Tosa Domain for the performance of an annual ritual involving 400 people and gifts of over 3,000 koku. During the Boshin War, Tosa domain supported the Ōuetsu Reppan Dōmei. In March 1871, the domains were transferred to the new post-Meiji Empire of Japan, After the abolition of the han system in 1871, Takayama Domain became part of the new Iwami Province, and its headquarters became Iwami Castle (⌷⌷⌷ Iwami-jō).
